

PRODUCT INFORMATION

BATTERY TERMINAL CLEANER (AEROSOL)

CODE: BTC4

PAGE: 1 of 1

DATE: 01/21/2008

FUNCTION AND APPLICATION: Solder Seal/Gunk ® Battery Terminal Cleaner cleans battery terminals, connectors, battery tray, and holder bolts and brackets by neutralizing acid corrosion and by cleaning dirt and grease accumulation on the battery.

OUTSTANDING PROPERTIES: Ensures a good contact between the battery post and connector. Ensures maximum current flow from the battery to the starter. Removes acid deposits, which could impair cold starts. Prolongs battery life (receives the maximum charge from the alternator).

USE DIRECTIONS: Shake can well before using container. Spray over battery surface and all corroded components on the battery, tray, and holder. Let soak for five minutes, then rinse off with water. Dry components with a paper towel or cloth. For excessively dirty components, repeat this application. For added protection use: Solder Seal/Gunk ® Battery Terminal Protector.

PRECAUTIONS: Contains (CAS#) sodium bicarbonate (144-55-8), 2-butoxyethanol (111-76-2), propane (74-98-6), and butane (106-97-8). Contents under pressure. **FIRST AID:** For eye contact: flush with clean water for 15 minutes while lifting eyelids and get prompt medical attention. For skin contact: wash with soap and water. For inhalation: move to fresh air. For ingestion Drink water or milk. Do not induce vomiting. Call Poison Control Center, Physician, or Hospital Emergency Room Immediately. Consult Material Safety Data Sheet for additional information.

HANDLING & STORAGE: Use with adequate ventilation. Do not use or store near fire, sparks, or flames. Do not puncture or incinerate container. Exposure to temperatures above 120°F may cause container to burst, rupture, or vent violently. Keep away from children and animals.

DISPOSAL: Dispose of container, residue, and excess product in accordance with all federal, state, and local laws and regulations.

CONTAINER DESCRIPTION: 5-weight oz aerosol container.
